

The 13th International Conference on Advanced Robotics
August 21-24, 2007, Jeju, Korea

Special Session

Robotics, Sensors and Algorithms for Humanitarian Demining

The focus of the session will include the following topics (but not limited to):

- ✓ Robotics and Mechanism for Humanitarian demining,
- ✓ Sensors and Sensing Technologies, Perception, Actuators,
- ✓ Sensors for mine detection,
- ✓ Sensors integration and data fusion,
- ✓ Navigation, Control, for Humanitarian demining robots
- ✓ UAVs for surveying mined area and map reduction of suspected area,
- ✓ Biosensors for mine detection,
- ✓ Etc.

To prepare for the special session, it would be very helpful to have your feedback showing your interest, the intention to submit a paper, and a tentative title of the paper **before the Jan. 15th 2007**. The deadline for submitting the paper of **6 pages** is **Feb.15th, 2007**.

Organizer:

Maki K. Habib
Prof. of Robotics and Mechatronics
Department of Advanced Systems Control Engineering
Graduate School of Science and Engineering
Saga University, 1 Honjo-machi, Saga 840-8502, Japan
Tel: [+81]-952-28-8696, FAX: [+81]-952-28-8587
E-mail: maki@ieee.org and habib@me.saga-u.ac.jp
